Letter of Recommendation for student:

Usulután June 12 of 23

To whom it May concern

I am pleased to write this letter of recommendation in support of Leticia Raquel López, code Usis028420 as a student of the computer science and network engineering career at the Usulután campus science and technology faculty, I have had the privilege of knowing Leticia and working with her for cycle 1-2023 in the subject of robotics.

Leticia is a person who has proven to be a responsible person, with values, committed to her tasks, and at no time have I had any class complaints with her, quite the opposite. She has always shown herself as a willing, collaborative and respectful person.

Without further ado for the moment, I say goodbye, remaining at your disposal for any kind of consultation.

Sincerely,

Marvin Parada
full time teacher
Faculty of science and technology
